To: the museum boards of directors

From: Emily Smith

Subject: attendance of museums and galleries

Date: 11/02/2019

The aim of this report is to summarise the data about the attendance of museums and galleries and give some recommendations.

Main features

Firstly, the rate of attendance in British Museum, National Gallery and Tate gallery is increasing every year. Secondly, Natural History Museum and Science Museum become less popular due to the admission charges, introduced in 2014.

Comparisons

As we can see in the chart British Museum and National Gallery are more popular than others.

~~Moreover~~ ^{However}, Natural History Museum and Science Museum used to be more attractive to the visitors and appealed to them earlier.

Recommendations

To begin with, the number of visitors can be increased by introducing new modern exhibitions. For example there could be created a light show ~~at~~ ^{with} recently painted ~~the~~ masterpieces.

If we draw on to the prices, special discounts can also be introduced, since it really attracts people.

All things considered, ~~it is that~~ we can make a conclusion, that prices play a big role in ~~the way~~ how many people the place will attract. A lot should be done to increase people's attendance of museums and galleries. If you have any questions, I would be glad to answer them on our next meeting.
