Opening statement

The aim of this report is to describe the data ~~collected~~ regarding the attendance of museums and galleries, and ^{provide} recommendations.

^{summary of the data}
The major increase of the flow of visitors was witnessed among British Museum, National Gallery and Tate Gallery.

On the contrary, the data regarding the Science Museum and Natural History Museum reflects a drastic decrease in the number of visitors.

Comparisons

The aforementioned is the evidence of the fact that the museums and galleries which ~~do~~ ^{did} not introduce ~~the~~ admission charges appeal to people more than the ones which did.

Also, ~~the~~ galleries seem to attract visitors more than museums. People tend to rate galleries ^{more} higher since they are more entertaining.

Recommendations

To improve the situation the following suggestions should be taken into consideration:

Firstly, more information should be provided by museums or galleries. For example, what kind of supplier did the artist use ^{or} what kind of canvas did he draw on.

Secondly, make the information less complicated for the ones attending. Avoid such words as "substantive" or "respectively" ~~since~~ since they confuse people and make them reluctant to visit museums ~~therefore~~ consequently leads to a decrease in attendance.

Also, admission charges should be reduced. ~~or even~~ It will ^{bring} benefit since people will not be ~~concerned~~ ^{concerned} with whether or not they can afford it.

To sum up, if all of the recommendations are implemented, the ~~attendance~~ ~~is bound to improve~~

number of visitors will become higher and the increase of attendance will be ~~noticeable~~ ~~and the data~~ ~~seen~~ immediately.
