From: Jordan Smith

To: Mr. Brown, Mrs. Flinn, the museum boards of directors, The Art-Culture department

Subject: The attendance of national museums and galleries in England

Introduction:

The purpose of this report is to comment on attendance of national museums and galleries in England and to give recommendations what should be done to increase their popularity with residents and guests of region.

Main features: Judging by the chart the first place in a rate is the

Judging by the chart the first place in a rate is the British Museum that was increasing its attendance during last years.

Also, it has the greatest number of visitors who were really active from 2013 to 2015. Another famous place is the National Gallery that also has progress, it has increased visits almost as quickly as the British Museum.

Comparisons:

There is an other situation with the National History Museum and the Science Museum as their popularity was reduced in 2015 on about 2,1-2,5 mln visits. Fortunately, they continued working and now people's attendance is growing.

Recommendations:

Using social statistics chart we can draw on some good advice for uncreasing attendance of such educational places. Firstly, it would be better to show how people can feel themselves after attending such places. Knowledge is importance so, it appeals to me that you can increase the popularity by inviting experts in such spheres as art, history, science to promote studying of the main subject of museums and galleries.

Conclusion:

This project can help to improve the educational system which

is not substantial in each place, but if we think about this is
we will have the possibility to make people study more.
